

About stockmaritime

Products and accessories are sold through emotion – and that is exactly what we do at stockmaritime.

Stockmaritime is the maritime brand of GentCom. Founded 1997, GentCom services clients in advertising tasks and communication consulting. GentCom has excellent knowhow in the automotive aftermarket and maritime business.

stockmaritime.com is evolved 2004 by the idea to share the fascination and uniqueness of maritime images. 2004 the imagestock library only for maritime pictures went online. With the maritime competence, further unusual but usefully products as advertising material, gifts are developed soon.

Now stockmaritime.com is german market leader in selling maritime pictures and radio controlled sailing boats. Special individuel model sailing boats für companies like VOLVO, HUGO BOSS, T-Systems and a lot are developed by stockmaritime. Now there´s a permanent product line of 12 model types from the 61cm AC60 - based on the Kyosho Fortune 612 - to the 107cm VO70 with canting keel aviable. The high-class carbon models are produced in the own factory in Hamburg with the same modern boatbuilding- technologies, which are used for the „big“ Volvo Ocean Racer.

Several customised maritime event-modules, can be booked to get through to visitors and customers. Whether it is sailing and yachting events, events at car dealerships, company anniversaries, stockmaritime provide you with one-stop service: Designing a coherent concept, organising the event, setting up the scenery, animating the visitors and heating up the atmosphere. Years of experience, a reliable and versatile vehicle fleet and the latest event technology support us being as efficient as we can be.

Behind every company are people with readiness for action and passion. stockmaritime has a lot of both of it!
